

City Administrator's Monthly Reports

The City Administrator's Monthly Report consists of information and significant happenings from all City Departments and outlines Capital Projects, Planning & Zoning, Economic Development, Engineering, Utilities/Public Works, Streets, Financials, Code Violations/Building Permits, and more. Each monthly report is provided to council members at the 2nd City Council meeting of each month and is published on the website following that meeting.

The City of Beatrice is focused on providing additional opportunities for communication both internally and externally for our citizens. These reports are a great way to stay informed!
