

2016 RESIDENTIAL ATTIC INSULATION INCENTIVE APPLICATION

Customer Information:

Name on Account: _____ Phone Number: _____

Board of Public Works Account #: _____

Address: _____ City: _____ State: _____ Zip: _____

Contractor Information (if applicable, or note “self-installed”):

Name: _____ Phone Number: _____

Address & City: _____

Insulation Information:

Total Attic Area (Square Feet): _____ sq. ft.

Total Area Insulated (Square Feet): _____ sq. ft.

Existing Insulation Depth (Inches): _____ inches

New Insulation Added (Inches): _____ inches

Total Depth after Installation (Inches): _____ inches

Type of New Insulation:

Loose Fill Rigid Foam Board Fiberglass Batt Other _____

Primary Heating System Type (Check ONE):

Electric Furnace Baseboard Units Cove Heat Geothermal HP

Air Source Heat Pump (Fossil Fuel) Air Source Heat Pump (Electric)

Primary Cooling System Type (Check ONE):

Heat Pump Central A/C Window A/C None

Rebate Amount (Square Feet x \$0.15, \$300 per dwelling limit): _____

PROGRAM GUIDELINES

Proof of Purchase: Sales receipt(s) or invoice(s) identifying the type, amount, and purchase date must accompany each insulation efficiency incentive application.

Incentive Offer: This energy efficiency incentive program covers the cost of attic insulation and installation during the program year in which it is purchased and installed. Program incentives will be calculated at a rate of installation area times \$0.15 per square foot and are limited to \$300 per dwelling. **Existing attic insulation levels must average six (6) inches or less and at least six (6) inches or an additional R-19 must be installed.** Insulation must be purchased and installed on or after September 1, 2009. Details of this program, including incentive levels, are subject to change without notice. The Board of Public Works reserves the right to limit incentives. The Board of Public Works provides incentives in the form of an account credit.

Eligible Customers: **Eligible customers must use electricity as their primary fuel source for heating.** Customers that utilize a natural gas or propane furnace as a backup to an air source heat pump do qualify. Program is for existing residential dwellings only. Duplex and multi-family dwellings that are individually metered (not master-metered) are eligible for one (1) incentive per dwelling. At the Board of Public Works' discretion, accounts other than residential may be eligible to participate. **NEW CONSTRUCTION AND/OR ADDITIONS DO NOT QUALIFY!**

Issuing Incentives: Insulation must be purchased and installed before an energy efficiency incentive is issued. Falsifying any information may lead to cancellation of this and future incentive applications, a claim by the electric utility for the return of any incentive, and/or referral for prosecution. Please allow forty-five (45) days for delivery of incentives. Submitting an application with incomplete or missing information may delay processing of the incentive. Board of Public Works incentives will not exceed \$300 per dwelling. At their discretion, the Board of Public Works may provide the incentive in the form of a rebate check or a credit on the customer's account.

Approval & Verification: The Board of Public Works reserves the right to verify sales transactions and inspect all insulation projects prior to and after installation.

Tax Liability: The Board of Public Works are responsible for any tax liability imposed on the customer as a result of the energy efficiency incentive.

Endorsement: The Board of Public Works endorses any particular manufacturers, products, nor system designs in promoting this program.

Safety & Building Codes: The customer/contractor agrees that each measure complies with all federal, state, and local safety, building, and environmental codes. All products must be UL-listed and installed per manufacturer's instructions.

Disclaimer of Warranties: The Board of Public Works warrant the performance of any material either expressly or implicitly. Contact the supplier or contractor for details regarding material warranties.

If you have any questions, please contact Erin Saathoff, City Clerk, at the Board of Public Works, (402) 228-5211.
