A word from Chief Lang . . .

Dear Mayor, Council and Citizens of Beatrice:

I am again pleased to present to you the 2004 Annual Report for the Beatrice Police Department. An active year for the Department with several high profile cases, as well as the ordinary crime responses which seem to take up the majority of our time. Staffing issues remain a concern as we currently are short three officers. Personnel movements following the retirement of Lt. Wiebe and the reassignment of several members of the Department has proven to be both challenging and inspiring for many.

Retention of officers continues to be difficult. We have lost officers for a variety of reasons the last few years. A general dislike for "real" police work in an active community such as ours is the primary reason officers leave. On some occasions we have hired officers from smaller jurisdictions who were not used to the pace required of urban areas such as Beatrice. Even though Beatrice is a moderate sized safe community, we do deal with the same issues facing larger communities in Nebraska. Other people simply find the reality of police work doesn't mesh with their perception of what law enforcement really is. A common misconception is that we are a training ground for larger agencies. In fact, we lose very few officers to larger agencies.

Methamphetamine continues to be a grave concern. A significant number of meth labs have been uncovered in the Beatrice/Gage County area this past year. We are also seeing a rise in the number of people addicted to this powerful drug and the large increase in social costs associated with drug addicts. Property crimes, child abuse, domestic violence and many other calls for service can be traced directly back to meth use. We are working hard on this problem and with the SEADE task force operating out of Beatrice we are able to direct significant resources at the problem. We are concerned with the proposed budget of President Bush which calls for the elimination of all task forces in Nebraska except Lincoln and Omaha.

As always, I invite you to review this report and please feel free to contact me if you have any questions.

A handwritten signature in black ink that reads "Bruce E. Lang". The signature is written in a cursive, flowing style.

Bruce E. Lang
Chief of Police
City of Beatrice

Mission and Goals

MISSION STATEMENT

The Beatrice Police Department will provide service and protection to its citizens through a professional and caring staff of sworn and non-sworn personnel.

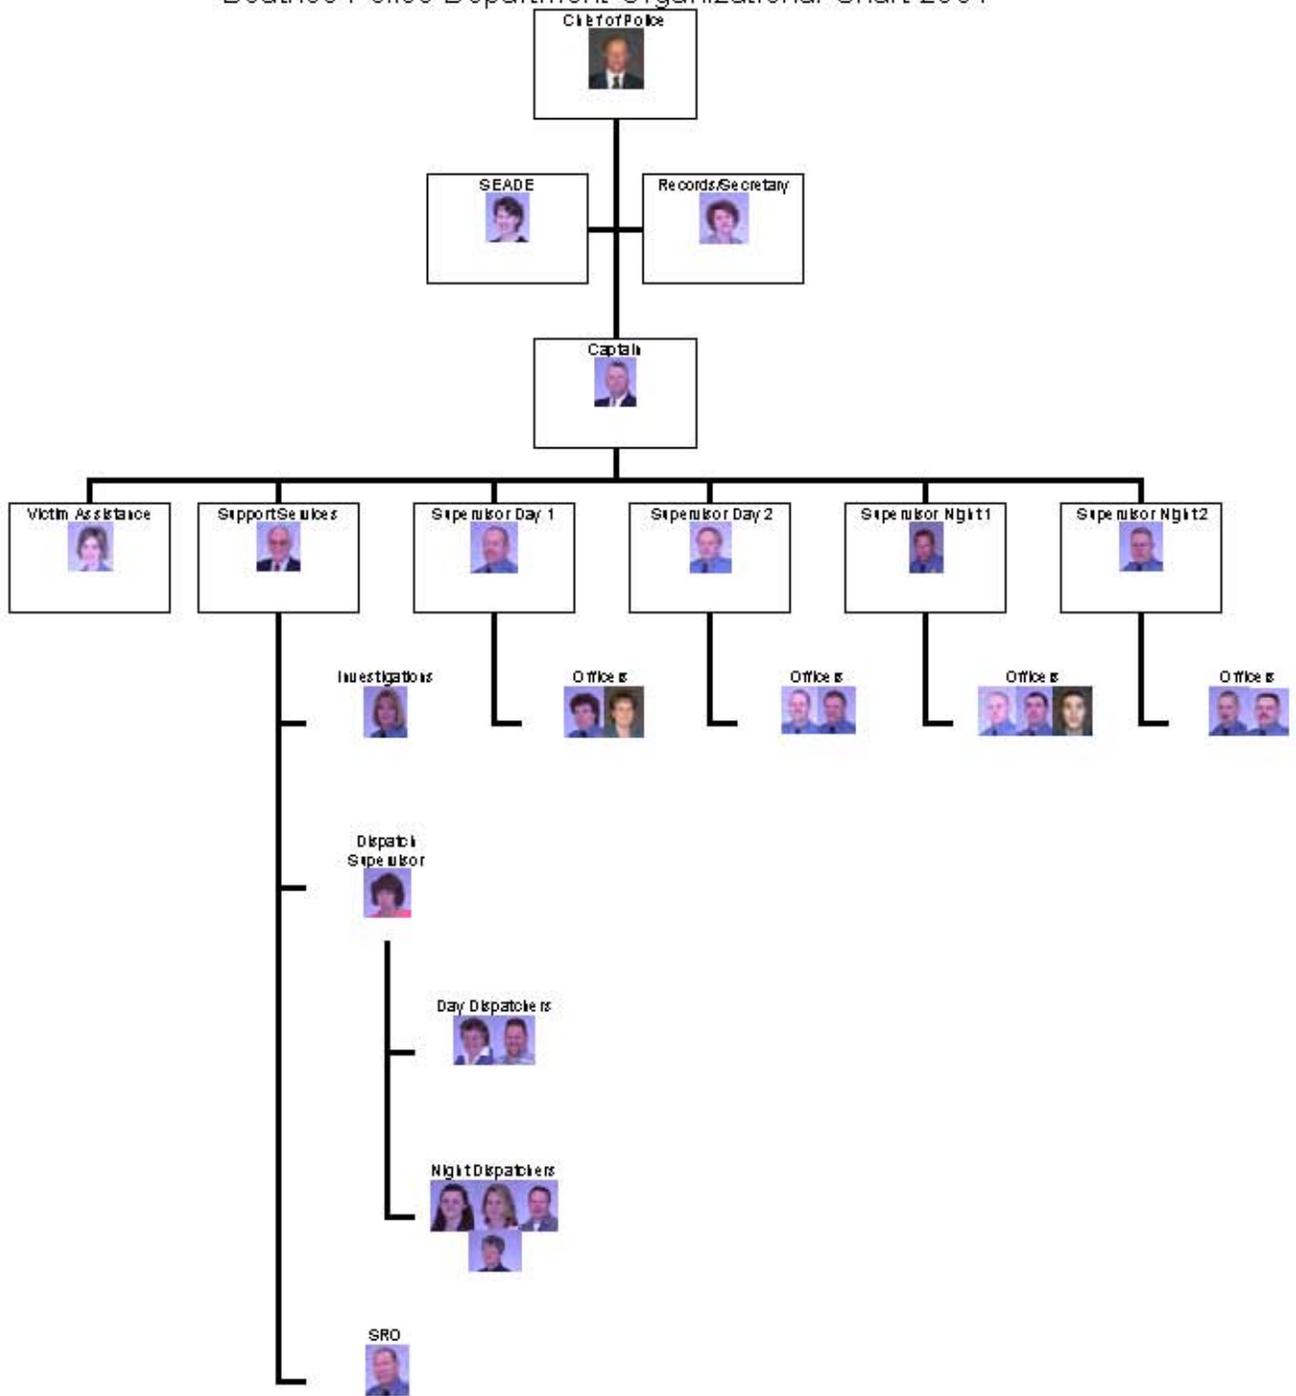

A strong patrol presence, supported by various other divisions within the department, will be the basis for our crime prevention efforts. Members of the department will work to maintain the standard of living that citizens of Beatrice have come to enjoy.

2004 GOALS

1. Improved Traffic Safety—through review of parking zones, use of the speed trailer, speed limit evaluations and selective enforcement.
2. Resume In-House Training
 - a. establish a training plan for each officer
 - b. special events training
 - c. greater use of specialized units
 - d. active shooter course
3. Maintain current authorized strength and replenish aging equipment needs through budgetary requests.
4. Establish a Building Check Plan
5. Complete the MDC plan and use it more efficiently to communicate with all agencies.
6. Re-establish the Community Policing Program

Administration

Not Pictured: Night Dispatcher Cecilia Rosentreader, PT Dispatchers Judie Braun, Stacie Bruns and Gary Cullison

2004 Grants

This year we applied for and were awarded a total of 5 grants. The first grant we received was from The Nebraska Commission on Law Enforcement and Criminal Justice for the purchase of two anti pursuit devices (stop sticks), and a digital camera.

The second grant received was from the Nebraska Commission on Law Enforcement and Criminal Justice for the continuation of our Victim Assistance Program, which has proven beneficial to both law enforcement and victims of crime.

The next grant received was also from the Nebraska Commission on Law Enforcement and Criminal Justice for the continuation of the S.E.A.D.E. Task Force. The S.E.A.D.E. Task Force has been busy during the year, and their work has lead to multiple arrests.

The fourth grant we received was from the Nebraska Office of Highway Safety for participation in the Nebraska Click It or Ticket safety belt campaign. Agencies participating in this campaign, which occurs three times a year, may be awarded prizes in the form of equipment at the end of the year. The prizes go to those agencies reflecting the highest percentage of safety belt usage in their area.

The last grant received was from the Nebraska Office of Highway Safety for participation in the Nebraska Click It or Ticket safety belt campaign. Awards have yet to be made of any prize earned.

A complete break down is shown below:

February	The Nebraska Commission on Law Enforcement and Criminal Justice awards a grant for two anti pursuit devices and a digital camera.
----------	---

Grant Award: \$1000

Match Funds: 112

July	The Nebraska Commission on Law Enforcement and Criminal Justice awards a grant for the continuation of the Victim Assistance Program.
------	---

Grant Award: \$33,980

Match Funds: 8,495

July	The Nebraska Commission on Law Enforcement and Criminal Justice awards a grant for the continuation of the S.E.A.D.E. Task Force.
------	---

Grant Award: \$91,900
Match Funds: 30,634

August

The Nebraska Office of Highway Safety awarded a grant for participation in the Nebraska Click It or Ticket safety belt campaign. This award paid for 36 hours of overtime and the expense of one patrol car used during the campaign.

Grant Award: \$903
Match Funds: - 0-

November

The Nebraska Office of Highway Safety awarded a grant for participation in the Nebraska Click It or Ticket safety belt campaign. This award paid for 33 hours of overtime and the expense of one patrol car used during the campaign.

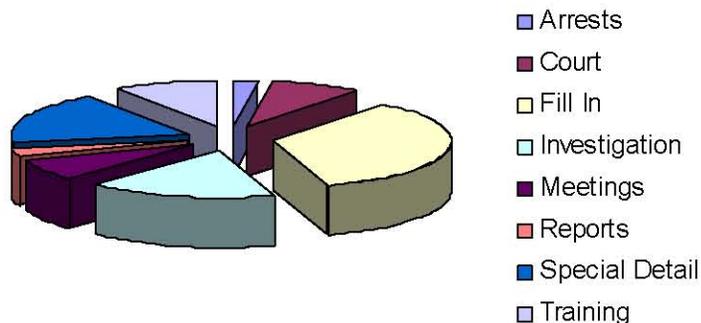

Grant Award: \$938
Match Funds: -0-

Overtime 2004

The total overtime this year reflects a reduction of 3.7 % over last year. All areas of overtime reflected a decrease, with the exception of investigation and special detail. Of these, special detail reflected the greatest increase, mainly due to assisting the SEADE drug task force, which accounted for 205 hours of overtime, which was reimbursed by SEADE. An additional 69 hours of overtime occurred when we took part in the Nebraska Click It or Ticket safety belt enforcement campaign, which was reimbursed by the Nebraska Office of Highway Safety. Investigation had the second highest increase, partially due to a shooting incident and crime scene team call outs. The Crime Scene Team is now being called out to assist Gage County with scene investigations and was called out twice this year, for a total of 51 hours of overtime. The overtime is reimbursed by Gage County. Overall, I feel that the Department has done a very good job of keeping overtime to an absolute minimum.

Overtime Totals

Training	194.7
Total Hours	2088.8

communications

Communication Center

The communication center sailed through the year with very few problems encountered. We did have one full time dispatcher resign from the center, however we were able to fill the vacancy by hiring one of our part time dispatchers as full time. We were able to find another part time dispatcher and we are now back to full strength.

I am pleased to announce that in June, our phase 1 E911 system went live. That means that when someone calls using their cell phone, the cell tower that the signal hit is shown on the map in the communication center. Each cell tower has a radius of coverage and that radius is shown on the map, indicating that the caller should be within that radius. This is a great advantage to the dispatchers when they receive a call and the caller does not know where they are. The radius of the tower will give a general area so that someone can start searching for them within that area. In addition to showing which tower has been hit, the map screen also shows the number of the call phone placing the call. This is handy in the event that contact is lost with the cell phone, the dispatcher can call the number back. The next phase for the enhanced E911 is phase II. Phase II will show the exact location of the cell phone placing the call, the name of the owner of the cell phone, and the call back number. This will be a tremendous benefit to the communication center and the motoring public, as we will be able to locate where the caller is, even if they don't know where they are. Unfortunately, this phase is very expensive and it is going to be several years before it will be available to communication centers in the state.

Our standby generator, which supplies power in the event of a power outage, is getting very old and less reliable. It appears that sometime in the very near future we will be able to obtain a new one with funding from Homeland Security Funds. This will provide us with a reliable power source that will start automatically in the event of a power failure. Our present generator is a manual start, and must be started in advance of any approaching storm, when we would anticipate a possible power outage. In the event of an unanticipated power outage someone would have to go out and start the generator, which could be a delay if no one is in the building to start it and an officer on the street would need to come in.

We are also attempting to get Homeland Funding to replace our present communication recording system. Our present system is also getting old and is getting very expensive to maintain. The present system uses DAT tapes for storage, and the new systems utilize DVD discs. The discs use less storage space and are cheaper to obtain than the DAT tapes.

We are looking forward to 2005, and whatever challenges may accompany it. We are proud of our communication center and all of our dispatchers. I believe it is the best one in the State, bar none.

THE COMMUNICATIONS CENTER IN 2004

In 2004 the Beatrice Communications dispatchers got quite a work out with many emergency calls, some being tragic.

There were a total of four fatality accidents resulting in six deaths. The first being on 2-9-2004 at a two vehicle accident at the exit of the Diamond T Truck Stop resulting in death of the driver of one of the vehicles. The second one was on 4-23-2004 in the area of rural Blue Springs in which one car with five occupants struck a dead end resulting in one death. On 6-23-2004 there was another two vehicle accident in rural Beatrice resulting in the death of a mother and her child and on 10-2-2004 another one involving a car and a grain truck resulting in the death of two men in the car. With every injury or fatality accident the dispatchers have numerous duties to perform from the time the call comes in till the time the officer/deputy clears from the call. During this time other calls continue to come into the Communications Center also needing the dispatcher's attention.

On 5-22-2004 Hallam, Nebraska was struck by a major tornado demolishing the entire town. The rural area of Clatonia was also struck with numerous structures being damaged. Hallam is in Lancaster County however the Beatrice Communications was largely involved with this as Cortland and Clatonia fire and rescue units provided mutual aid to Hallam. With the destruction of this tornado, Gage County had no fatalities reported.

On August 5th, 2004 at 1054 hrs., Beatrice Communications received a 911 call where we could barely hear a voice due to static. With our enhanced 911 system and the recent updates, we saw the caller's phone number and the tower that the call came from however from where we eventually found the caller was and where the tower is located was nearly 12 miles apart. The caller kept calling back as well as us calling him back numerous times, we were able to determine that a male subject was underneath and piece of heavy equipment in a ditch pinned. With the dispatchers only able to hear bits and pieces the caller was yelling the name of the person's land he was on and that he was pinned. After putting pieces together a location was finally obtained and rescue personnel dispatched. The subject was very fortunate to only have minor injuries.

In 2004 the Communications Center received two 911 calls resulting in severed arms. The first being in rural Clatonia involving a child and a riding lawn mower and the second with a lady who was caught in an auger. Both of these calls involved keeping the caller on the phone till rescue personnel arrived and giving the caller directions on what to do till the rescue units arrived.

In October of 2004 on a quiet Sunday afternoon the dispatchers received numerous calls of an airplane crash, near the North Booster station. This involved numerous agencies and citizens in saving the pilots life as well as extinguishing the fire in the

aircraft. This accident could have been much worse than what it was being on the major highway, if it hadn't been for the quick thinking of the pilot.

One would think that the Beatrice Communications Center only handles calls in the Gage County area however there was one call we received from a friend of a lady who had her sister who lives out of state on the phone and the lady from out of state was threatening suicide and taken numerous pills. While one dispatcher was getting the relayed information from the friend who was being advised by the sister in Beatrice who was talking with her sister out of state, the other dispatcher was pulling up the phone number for the agency out of state that needed to respond, as well as the address of the suicidal lady as the sister didn't have her address. The out of state law enforcement center was advised of the address and the circumstances and dispatched emergency personnel to the suicidal female. This involved four people in Beatrice getting the information needed from the female out of state in order for help to be sent. This proved to be very trying on dispatch however the female was hospitalized and received the help she needed.

Another time, Beatrice Communications received a call from female wanting to talk to someone as she wanted to kill herself. She had called information and the phone company in her area gave her our phone number. Eventually we found that the caller was calling from Cedar County, Nebraska. Once again while one dispatcher was talking with the suicidal female, the other dispatcher was on the phone with the State Patrol in that area, relaying information that the female was giving us.

When someone calls saying they are suicidal, it is the dispatcher's job to keep the caller on the phone. Sometimes the call may not come in as a suicide attempt, however, a rescue call. While speaking with the caller and keeping them on the phone till rescue units arrive, a lot of information can be obtained, helping all responding units.

Although the dispatchers do receive training in handling emergency calls, all of the calls listed above have an impact on their day. Normally there are two dispatchers working during the peak hours and therefore can critique the call between themselves once the call is complete. This does help relieve the stress to the dispatchers.

P a t r o l

Road Patrol

The backbone of all municipal law enforcement agencies is the road patrol. The Beatrice Police Department is no different. Three patrol officers and one supervisor staff the patrol division, on a 24 hour per, day seven days a week schedule. Our officers work 12 hour shifts, which affords them with every other weekend off.

While responding to over 14,000 requests for service each year, we also ask our officers to watch for criminal activity throughout the community, enforce traffic laws, interact with the youth and other citizens, and provide a variety of services to the citizens of Beatrice.

Officers of Beatrice Police Department function under what is known as a generalist police officer philosophy. What this means is that rather than taking reports and then forwarding the case to a detective for follow up, the officer begins the investigation and continues the investigation through its various stages with only minor assistance from support personnel. We believe that this type of approach makes the officer more accountable to the public and also aids in enriching the professional growth of each officer.

Uniformed officers of the department are often the only contact citizens have with the Police Department, and we strive to make sure these contacts are as positive as possible under the circumstances.

We are currently down two officers. We have two officers in Grand Island training, and we hope they will be out of training in approximately 28 weeks. We currently have one officer in the final phase of training, and will be operating on his own in approximately two more weeks. This leaves staffing within road patrol short for the time being, but hopefully we will be back up to full strength in 7 months.

Vehicle Summary

The department maintained its current fleet throughout the 2004, budget year. One new police vehicle was ordered in November 2004, but it is estimated that it will not be ready to bring into the fleet until March 2005.

The Vehicle maintenance budget took a hard hit, keeping the current fleet in road worthy condition. When patrol units are down for extended service this places additional wear and mileage on other units. Four patrol units average 14668 miles driven in 2003. These same units averaged 25409 driven in 2004.

We have two patrol vehicles with high mileage, but we will replace one of those, when the new patrol unit arrives.

FLEET INFORMATION

Unit	Year/Make	Model	Mileage	Miles Driven in 2004	Use
1	2000 Ford	LTD	90916	21079	Patrol
2	2002 Ford	LTD	54768	26130	Patrol

Major Incident

Major Crime Report

We have seen an increase in sexual assaults, going from 22 in 2003 to 27 in 2004. Larceny calls seen a dramatic increase, that we feel is directly connected to the increase in the use of drugs, primarily the use of Marijuana and Methamphetamine in our community. We continue to see the theft of car stereos and purses from motor vehicles around town, and it seems like it makes no differences if the cars are locked or not. However it does make a difference if the items are in plain view or not. We have seen a slight decrease in thefts from motor vehicles.

One thing that has continued to increase is the number of arrests for possession and use of Methamphetamine. We feel this is a direct connection to many crimes committed in the Beatrice area. The increase in this area is the type of drug cases such as meth labs. Many of the arrests we make for major and minor crimes lead back to the use of meth.

There has been a very good conviction rate for arrests for possession of meth and we hope to continue to see this conviction rate stay at this level.

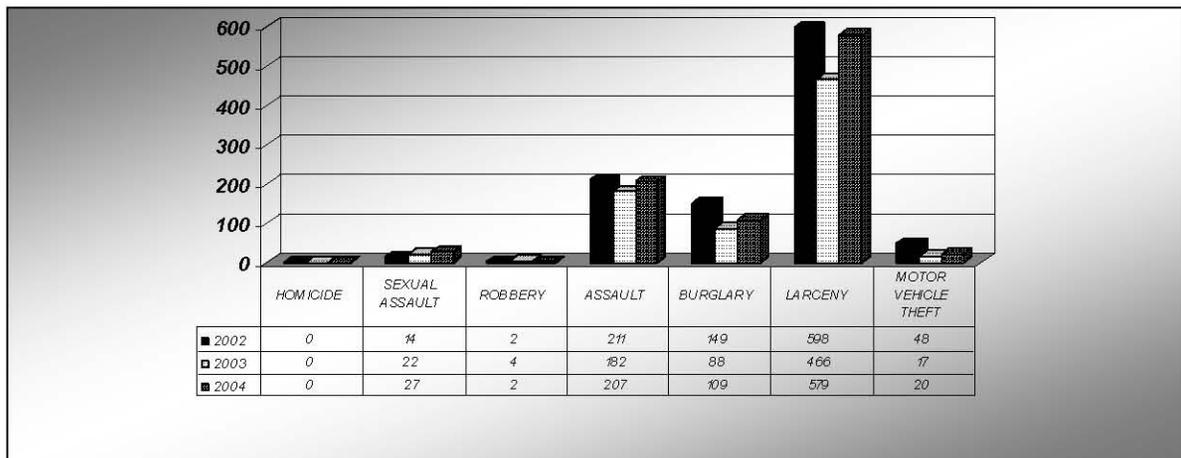

We are very fortunate not to have had any homicides this year, we escaped with a very close call when we did have one subject shot in the back but survived.

Burglary, assaults, and motor vehicle thefts were all up this year and again we can trace a large portion of these increases back to the use of illegal drugs.

Our arrest and conviction rate on all major crimes remains high for the City Of Beatrice.

Criminal Investigations Report

The criminal investigations unit is responsible for the investigation of cases involving a special subject matter and cases that are more complicated and often of a more time consuming nature. The Criminal Investigations Unit is assigned a case when the nature involves serious criminal activity, such as suspected homicides, suicides, felony thefts and felonious assaults, or when the criminal activity appears to be part of a pattern. The Lieutenant in charge of Support Services commands the Criminal Investigations Unit with one full time investigator assigned to the unit.

During 2004, the Investigation Unit saw a change with the promotion of Michael Oliver to Sergeant. Christina Vath was appointed as Investigator. In 2004, the Investigations Unit has been kept busy with a variety of cases ranging from thefts, sexual assaults, child abuse cases, and drug violations. During the first few months of 2004 there were several reports of embezzlement from businesses, involving over \$34,000 worth of merchandise and cash. After extensive investigations on these cases, all cases were cleared by arrests. Early in 2004, a report of an armed robbery to a residence was received. After investigation, the case was cleared with the arrest of three male subjects. All three subjects were convicted and sentenced to prison. In late 2004, a male subject was arrested after shooting another male subject in the back. The suspect was arrested shortly after the assault.

In addition to criminal investigations, the Criminal Investigations Unit conducts background investigations for department personnel, and background investigations for liquor license applications within the City of Beatrice. The Criminal Investigator is also assigned to the state mandated, countywide, Child Abuse/Neglect Investigative Team. This team meets once a month and reviews cases involving suspected child abuse or neglect.

The investigator assigned to the Criminal Investigations Unit also serves as the liaison to Crimestoppers of Gage County, Inc. This assignment requires the investigator to attend monthly meetings of the Crimestoppers board. The investigator also is responsible for the maintenance of the statistical reports, writing of the year-end report, and recommending rewards to confidential callers.

Crime Scene Team

This year was a busy one for the team. The Crime Scene Team will now respond, when requested to do so, to major case scene investigations occurring in Gage County as well as within the City. The County will reimburse the City for any expenses occurring as a result of a call out in the County. In addition to crime scene work, our mobile command vehicle and one officer was sent to Clatonia to serve as a mobile command post following a tornado, which occurred in May. The vehicle was there for a short period of time and was released after it was determined that it was not needed.

In the event you are not familiar with the Crime Scene Team, the team is made up of sworn officers and civilians from within the department who have volunteered to be on the team. Each member receives training in all aspects of crime scene investigation such as photography, sketching, tool/tire mark impressions, latent prints, trace evidence recovery, searching, and evidence retrieval. Each member has demonstrated the ability and desire necessary to perform their duties in an efficient manner. I am proud to have such dedicated members on the team.

We were called out a total of six times in 2004, four times within the City and twice in Gage County. A break down of the call outs is shown below:

- April 27 The team was called out to assist with the execution of a search warrant on a residence within the City. The search warrant was for drugs and drug paraphernalia.

- May 8 The team was called out to assist Gage County with a death investigation occurring in a motor vehicle on a county road.

- July 11 The team was called out to investigate a suspicious death at a residence within the City.

- October 16 The team investigated the scene of a death at a residence within the City.

- December 7 The team investigated the scene of a shooting within the City and conducted a search of the suspect's residence.

- December 11 The team was called out to assist Gage County in the scene investigation of a sexual assault at a residence and the execution of a search warrant on the residence of the suspect.

Runaway	41	25	68
Other Arrest Charges	354	124	426
TOTALS	1179	746	1382

*A total of 996 arrests were made during the year. Those 996 arrests resulted in the above listed charges.

900-200-2000

BEATRICE/GAGE COUNTY EMERGENCY RESPONSE TEAM

The Beatrice/Gage County Emergency Response Team is a multi-agency tactical unit formed in the mid 1980's to respond to high-risk incidents. Currently the unit is made up of members of the Beatrice Police Department, Gage County Sheriff's Office, and Beatrice Fire and Rescue. Command of an incident falls with the agency head of the jurisdiction where the incident occurs, with the Tactical Team Commander having operational command over the unit. The Tactical Team Leader and Assistant Team Leader are tasked with developing a tactical plan and leading a tactical intervention during an incident, along with developing a training schedule and conducting monthly training.

The Emergency Response Team is tasked with resolving Hostage Situations, Barricaded Subjects, the service of High-Risk Search and Arrest Warrants, or any incident requiring high-risk police tactics. ERT is also available to assist the S.E.A.D.E. drug task force with the service of their high-risk search and arrest warrants. During 2004, the unit was responsible for the resolution of two incidents; a barricaded gunman and a reported hostage situation. Both incidents were resolved with an arrest of a suspect, without incident.

During the later part of 2004, ERT conducted training in weapons qualification, hostage rescue tactics, responding to an active shooter, breaching techniques, dynamic entry movement, down-officer rescue, searching with a K9, conveyance assaults, establishing an incident command, use of the ballistic shield, use of infrared and night vision, and use of the fiber optic scope. Sergeant Murphy and Sergeant Lenners attended an instructor's course in Law Enforcement Response to the Active Shooter during the later part of September. The course will be taught to all law enforcement officers in Gage County and offered to law enforcement agencies in surrounding counties. In November, three deputies from the Sheriffs Office, Deputy Kubicek, Deputy Menezes, and Deputy Kendall, attended a Basic SWAT course conducted by Sarpy County. During December 2005, an evaluation of the training was accomplished by conducting a hostage rescue scenario, assessing the capabilities of an Incident Commander, the Emergency Response Team and the Crisis Negotiations Team.

Team Member Information:

Team Commander	Captain Bill Fitzgerald	BPD
Team Leader	Sergeant Tony Lenners	BPD
Asst Team Leader	Sergeant Jay Murphy	BPD
Team Members	Sergeant Mike Oliver	BPD
	Officer Wes Henning	BPD
	Officer Erin Byrne	BPD
	Sergeant Anna White	GCSO
	Deputy Joe Kubicek	GCSO
	Deputy Chuck Menezes	GCSO
	Deputy Larry Kendall	GCSO
Negotiations Team Leader	Sergeant Jerry Lamkin	BPD
Negotiations Team Member	Officer Zac Lauenstein	BPD
Tactical Medics	Mike Massey	EF&R
	Craig Fisher	BF&R
	Jake Carrel	BF&R
	Jim Young	BF&R

Gage County Victim Assistance Unit

Kerri McGrury, Coordinator
Gage County Victim Assistance Program

- The Victim Assistance Program has been in existence since 1995. It is supported by VOCA federal grant funds and matching in-kind funding by the City of Beatrice and Gage County. The daily operation of duties of the director include but are not limited to direct contact either face to face or phone contact with victims, assistance with protection orders, criminal justice advocacy, follow up contact, etc. The director is also responsible for grant writing and keeping track of all statistics for VOCA funding.
- This program provides services to all victims of crime in Gage County. Some of the services provided are listed below:

Crisis Intervention	Personal Advocacy
Compensation Assistance	Jail Release Information
VINE Information/Registration	Parole Information
Victim Impact Statements	Transportation
Property Release	Protection Order Assistance
Restitution Information/Assistance	Criminal Justice Advocacy
911 Cellular Phones	

- I am a Board Member and Treasurer of the Nebraska Coalition for Victims of Crime which meets monthly. I also serve on the legislative, and PR/membership committees.
- I serve on the Board of PATCH and the Gage County Alcohol, Tobacco and Other Drug Council.
- I serve on the Community Justice Committee of the Gage County Coalition.

Training summary

The Beatrice Police Department conducts many training seminars at the Police Department on a monthly basis. Some of the training covers our pursuit policy, CPR training for all officers, Defensive Tactics, Tactical Firearms, Radar Certification, OC Aerosol Projector just to name a few. These are all taught by members of the Beatrice Police Department whom have been trained as instructors in each field.

We have attempted to send as many officers to different training schools, during the year in an attempt to keep up with the continuing changing laws, and still maintain a minimum of overtime. This year we had 16 different officers attend training outside the department. There were 16 different training sights where the officers trained The following list consists of the schools attended.

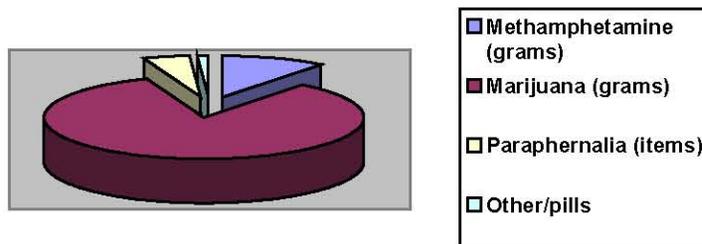

1. Jan. 5th & 6th Spanish for Cops, taught by Sgt.Chernock, Sioux City P.D.
2. Feb 9th through 20th Grand Island Telecommunicator course.
3. Feb 13th thru 17th National Youth Crime Watch of America, in Virginia
4. March 9th thru 11th Youth for Justice Washington DC
5. March 17th, Grand Island Firearms Recertification
6. March 22 thru 26th W. Virginia, National White Collar Crime Training
7. March 29th thru April 2nd GI Training Center, Field Training Officer Course
8. April 20th, Forensic Wound Identification
9. May 4th mandated coverage of pursuit policy
10. June 3rd, Investigative Team Training/Safe Schools, Healthy Students
11. June 29th DRE Recertification, Lincoln, NE
12. Aug 3rd thru 6th Narcotics Enforcers, Oklahoma City
13. Sept. 7th Firearms Recertification Training Grand Island
14. Sept. 20th thru 24th Independence, MO, Active Shooting Instructors Course
15. Sept. 23rd, GITC mandatory NCIS training, Gun Check Laws
16. Oct 19 thru 21st, Grand Island Training Center, Supervision school
17. Oct. 21st NCJIS training Omaha, NE
18. Oct 26th NE Emergency Management Agency, Incident Management System
19. Nov. 8th In-service training, Records Keeping.
20. Nov. 24th and 25th Radar Recertification on Laser and Doppler Radar

SEADE REPORT

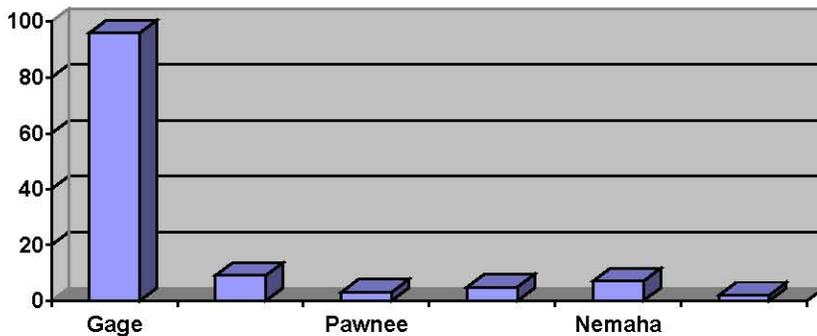

SEADE is a drug task force that operates off of a federal grant administered by the Nebraska Crime Commission. SEADE also receives matching funds from the six counties that it serves. SEADE has two full time investigators and a part-time secretary. The following are statistics for the year 2004.

<u>Cases Initiated</u>	121
<u>Confidential Informants</u>	14
<u>Intelligence Reports</u>	175
<u>Arrests</u>	23
<u>Drug Buys Initiated</u>	14

Drugs Seized

The SEADE Task Force serves a six county area. Below is a graph demonstrating cases per county.

SEADE has been working closely with the Nebraska State Patrol, DEA, ATF, KBI, Marshall County, KS Sheriff's Department as well as other local agencies to dismantle a large methamphetamine ring in Southeast Nebraska/Northeast Kansas. Thirty – five individuals have been federally indicted in this case. SEADE continues to proactively combat the drug problem by presenting information to local groups concerning the dangers of drug use. We worked closely with Safe Schools/Healthy Students to present a Meth Awareness Program in April to Gage County communities. We did presentations in Beatrice, Wymore, and at Tri-County School. We educated over 150 people about meth with the "Users Are Not the Only Losers" presentations.

Bike Patrol

The Beatrice Police Department Bike Patrol logged approximately 85 hours of bike patrol for the year 2004. This is up a couple hours from the previous year. In addition to patrolling parades, Homestead Days, and after school activities we did concentrate on patrolling residential areas of town. We had a rash of theft from auto complaints throughout Beatrice and we utilized our bike patrol regularly.

We did not make any major purchases for the year other than routine bicycle maintenance.

School Resource Officer Program

The Beatrice Public Schools District and the City of Beatrice Police Department continue to reap the benefits of this shared-cost program, which is designed to not only help keep our schools safe but also to foster a better relationship between juveniles and the police. This program, which is now in its sixth and final year of the Federal COPS grant, has been very successful in creating a good working relationship with both teachers and administrators of the schools, as well as building a 'bridge' to cross the gap between juveniles and police officers.

Statistics from the second semester of the 2003-2004 school year and the first semester of the 2004-2005 school year show that reported crime continues to decline in both the Beatrice Middle School and the Beatrice High School, with the Beatrice Middle School having very few reported crimes in this time frame. Educational lectures regarding laws, ordinances, and duties of police in general are still welcomed and requested by various teachers in both the High School and Middle School settings. In addition, other police officers are now requested to come in and give lectures in order to educate students on their areas of expertise.

A good portion of my time in the schools is now being utilized performing mediation techniques for students having problems with other students. Preventive techniques such as mediation allow hostile situations to be resolved prior to the situations turning into criminal activities such as assault and vandalism. Methods such as mediation and interventions have been successful in helping to lower overall reported crime in the schools.

Truancy continues to be an issue requiring constant vigilance, as the issue is getting better but still needs improvement. Efforts are made by both the school and police to get these students to school, however some families in Beatrice place very little value on education. Truancy arrests are down in number, but continued work is needed in order to keep students and their families aware that education is very important to the student's success later in life.

As mentioned, this is the last year under the shared-cost method of funding between the City of Beatrice and the Beatrice Public School District, and the desire to keep this program in place is very high among teachers, administrators, and police officers as there are many benefits to the program. Additionally, many of the students at both schools have stated that they would like to see the program continue as they like having a police officer in their school. Students say that they like to be able to ask questions and that they appreciate advice or ideas they get when they bring up issues that are occurring in school, at home, or even outside of school in the community. With luck, this program will remain in place to help serve the needs of our juveniles in our schools and community, and also help serve the needs of teachers and administrators in our school system.
